You are required to design a website for a Photographic Studio. Background Image and other images has uploaded to the EKEL.

There are four web pages named as Home.html, Services.html, About_us.html and Contact.html as given in the figures.

- The heading MyPhotography.lk has to be displayed as given in the figures in each and every page.
- Use buttons to load Home, Services, About Us and Contacts pages.
- Once the user clicks the buttons, the relevant page will be loaded on top of the same page. The new page should not be loaded in a new tab.
- Use the “div” tags to arrange the divisions of these pages.
- Give a meaningful title to all the pages with including a camera icon image as title icon.
- All the formatting of this website should be done using HTML and CSS.

WEDDINGS

A wedding is typically one of the most memorable days in a lifetime, one that people remember for years to come. For most couples, regular pictures just won't do. Wedding photography is much more than simply snapping a few pictures. It is a one kind of art. Just tell us what you need and we will fulfill that..

PRE SHOOTS

A pre-shoot is a great way to get acquainted with being in front of the camera as many people haven't had professional photographs before - but it also gives me the perfect opportunity to see how you interact together, and capture the magical moments between you both.

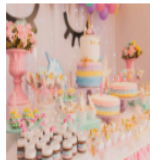

BRIDAL SHOOTS

A bridal portrait photoshoot is a picture session that involves the bride getting dolled up in her full bridal makeup, hair and outfit and taking photos before the big day. They're usually fashion-style shoots that involve the bride posing against a minimalistic backdrop.

BABY SHOWER

A baby shower is basically a party which is thrown to celebrate the impending birth of a new baby. It's also a way for friends and family to help the new parents get everything they need. After all, babies need tons of stuff, and the list can get quite expensive!
